

THE BOOK

IKT SURFACES AND TEXTURES

27 / 28

While facing contemporary hyperstimulation, design seeks to reconnect with the essence of life. This book proposes a unique balance between organic chaos, cultural heritage, sensorial feel and the pleasure preciseness. A continuous dialogue between innovation and legacy, the digital and the natural, which transforms each space into a personal and collective reflection of the present we inhabit and the future we imagine.

DIM SHADOW

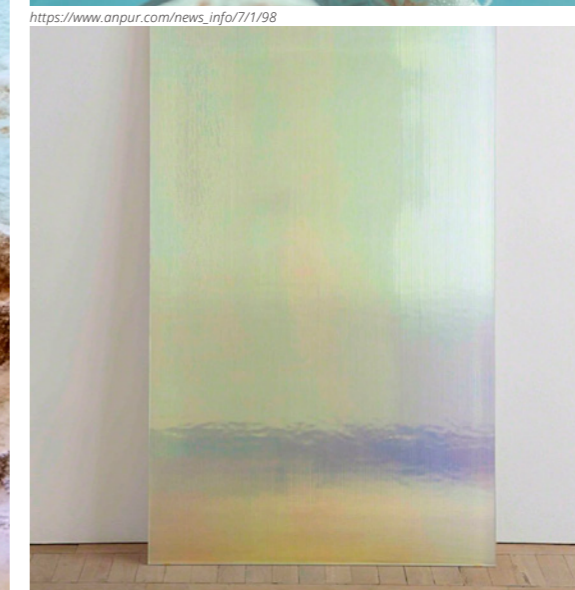

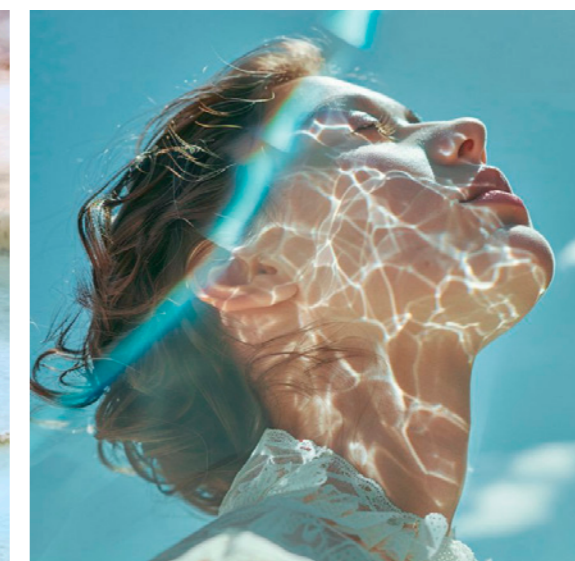

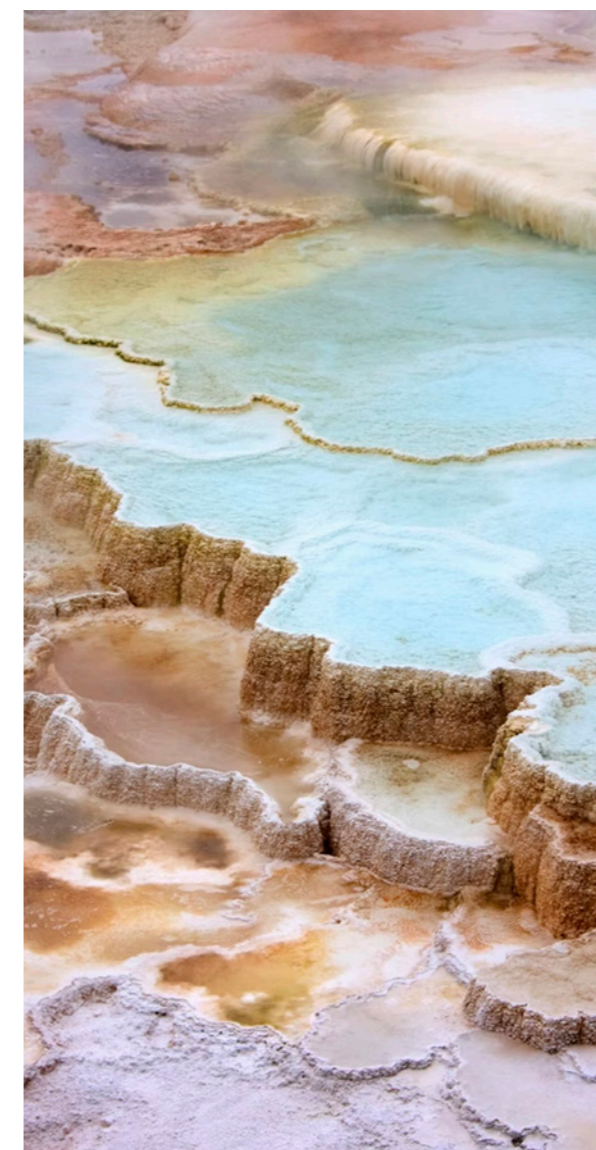

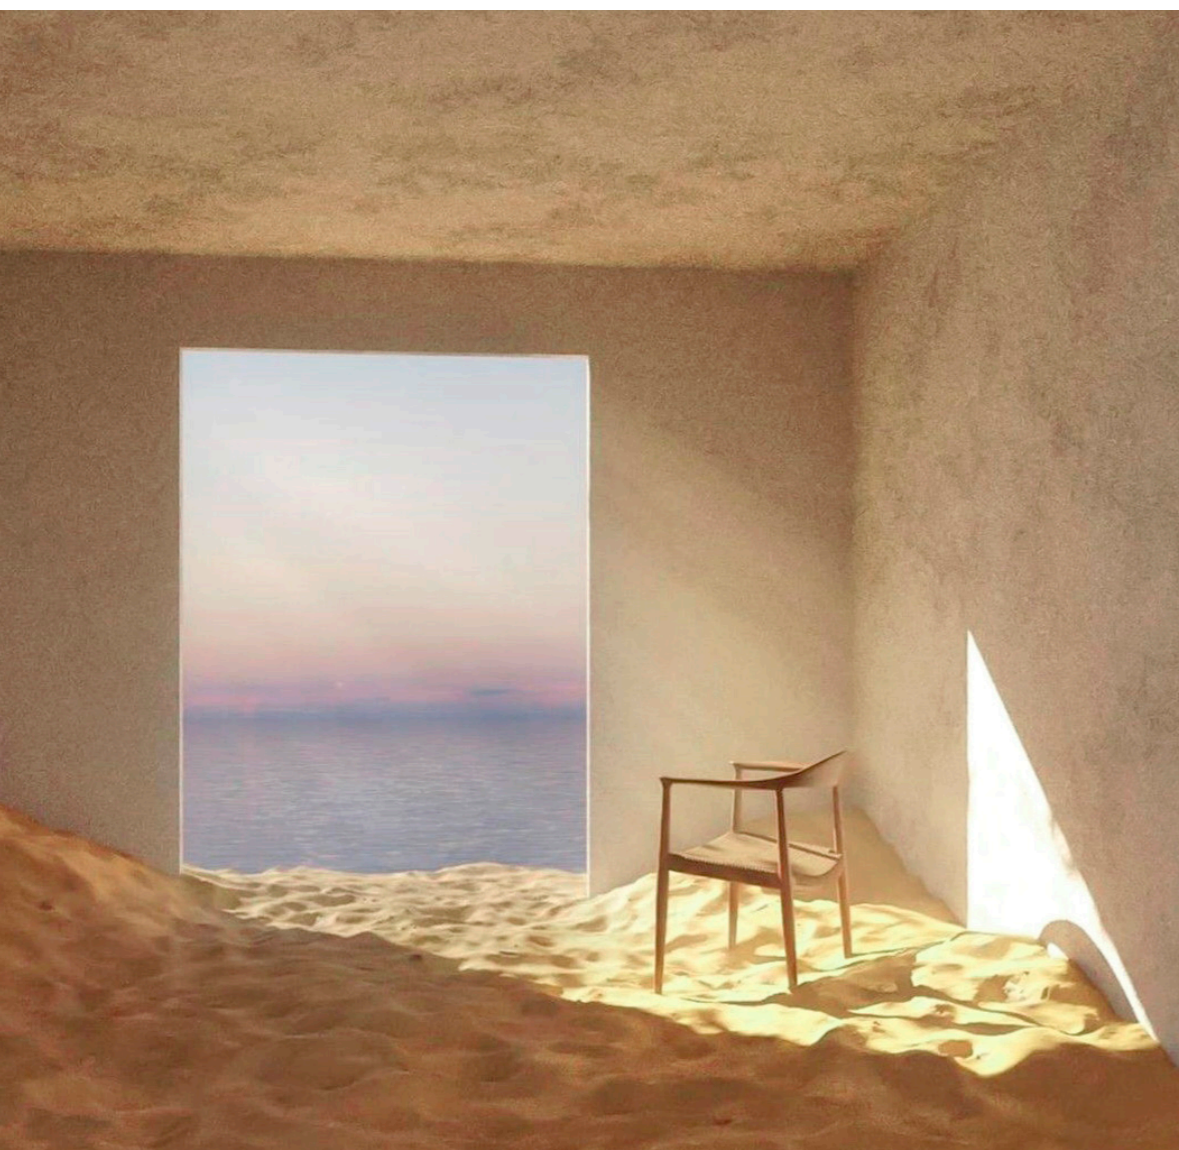

This trend invites you to lose yourself in the ethereal landscape, in the veiled, in what is not entirely visible. The effects of fog, water, and transparency are explored as new forms of visual softness. The concepts of abstract and sensorial visual effects comes to life through a fresh and modern palette.

Visual and Material Application:

- Iridescent marbles, diffuse gradients, opalescent glass.
- Surfaces layered with glazes and transparencies.
- Wallpapers with hazy or vaporous effects.

Color Range:

Acid and fresh pastel tones.
